

Upcoming Events

2009 Annual Symposium & AGM
The Team Weighs Up
Brisbane, Saturday 7 November 2009

This year as well as workshopping clinical skill development in the fields of mindfulness and hypnosis, we are meeting to review two key recently published reports: "Weighing it up: Obesity in Australia" & "Australia the healthiest Country by 2020."

The focus will be on working with the multi-disciplinary team in managing the complex psychophysiology of obesity and weight loss.
